YOUR SUPPORT WORKS IN TIPTON, RIGHT WHEN IT IS NEEDED!

I will never forget that long summer day when my call for help was quickly answered.

I live in Tipton County, TN on a small patch of land that is about 25 miles from the nearest town. My husband and I drive to town twice a month to shop for groceries and pick up our prescriptions. I take heart medications and my husband takes medicine for diabetes.

We were so excited that our granddaughters were spending two weeks of their summer vacation with us. I was determined to teach the girls how to cook the old fashioned way. One day, my youngest granddaughter had a headache and I sent her to the medicine cabinet to search for something to take. I told her to look on the top shelf, find the brown bottle and take the small red pill.

My granddaughter did exactly what I instructed her to do, but instead of taking medicine for her headache, she took one of my heart pills instead. I didn’t panic. I remembered my pharmacist had given me a magnet to place on my refrigerator and it had the number to a poison help line. I immediately dialed the number and was greeted by a nurse who calmed my fears.

The poison help line was funded by United Way of the Mid-South. Because of their support, when I called someone was able to answer and come to our rescue. Thank you for giving to United Way of the Mid-South!
DONATIONS INVESTED IN TIPTON COUNTY: $36,512

Your gifts to United Way of the Mid-South are invested in nonprofit programs that are improving education, income stability and health in Tipton County. The decisions about where to use your donation are made by people who live in Tipton, who know the county’s needs and the resources available to make the greatest impact on local lives.
